

Elnora

Perfect Storage Solution

Functionality with the
touch of Exquisite is
something that defines

ELNORA

Just have a glance over the transformations which Sleek has done to thousands of kitchens in the country, and you'll get a fair idea why no one knows the Indian kitchen better than Sleek. Over the years with its worldwide recognized quality, Sleek has always exceeded expectations with its long list of innovations woven around functionality, aesthetics and consumer insight. The perfect testimony to the above statement can be very well experienced with its launch of ELNORA, an eclectic range of baskets. With the definition of clever, stylish and smart storage, the ELNORA baskets are destined to put a full stop to the storage dilemma in your kitchen.

So just give your kitchen the touch of ELNORA and experience the kitchen organisation like never before.

Elnora
kitchen storage solutions

Designed with such premium features,
it reflects an essence of high-class

**Elegant
Chrome
Finish**

ELNORA range of baskets meets the highest expectations in terms of design. Incorporated with elegant chrome finish, the range has been designed to enhance the aesthetic appeal of any kitchen. Also, the rust resistance is very high.

Designed with a thick and solid base, ELNORA offers the best protection and prevents the risk of utensils tumbling while opening and closing of drawers.

**Solid bottom
for Solid
support**

**10-Year*
Warranty**

The assurance of 10-year warranty gives our consumer added peace of mind in terms of quality and performance.

Need Specific Design

ELNORA range has been designed by keeping the Indian kitchen storage needs in mind. The range comes in three styles i.e. Solid Bottom, Perforated and Wire bends. So, whether it's crockery items, spice jars, cutlery items or serving plates and bowls, everything has its own place.

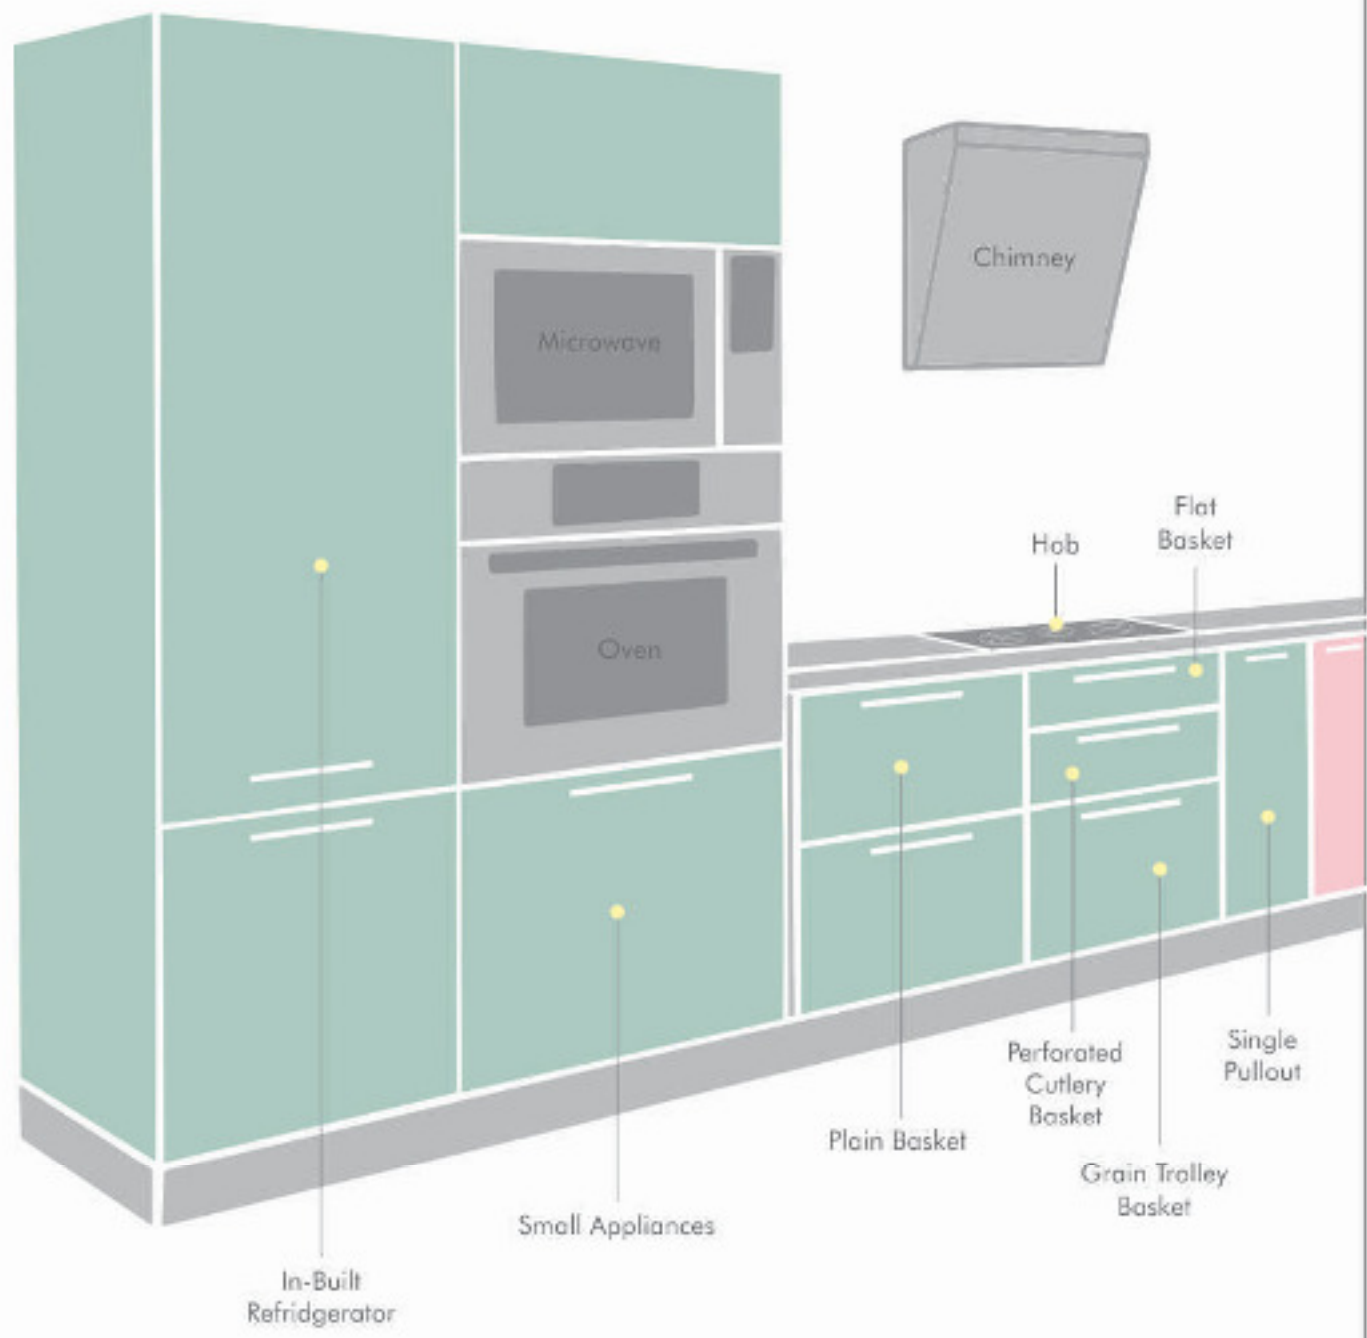

Ergonomically Crafted

The range has been ergonomically designed with an aim to offer safe and flawless kitchen operations every time. No sharp edges of the wire bends reduce the risk of hand getting cuts while operations.

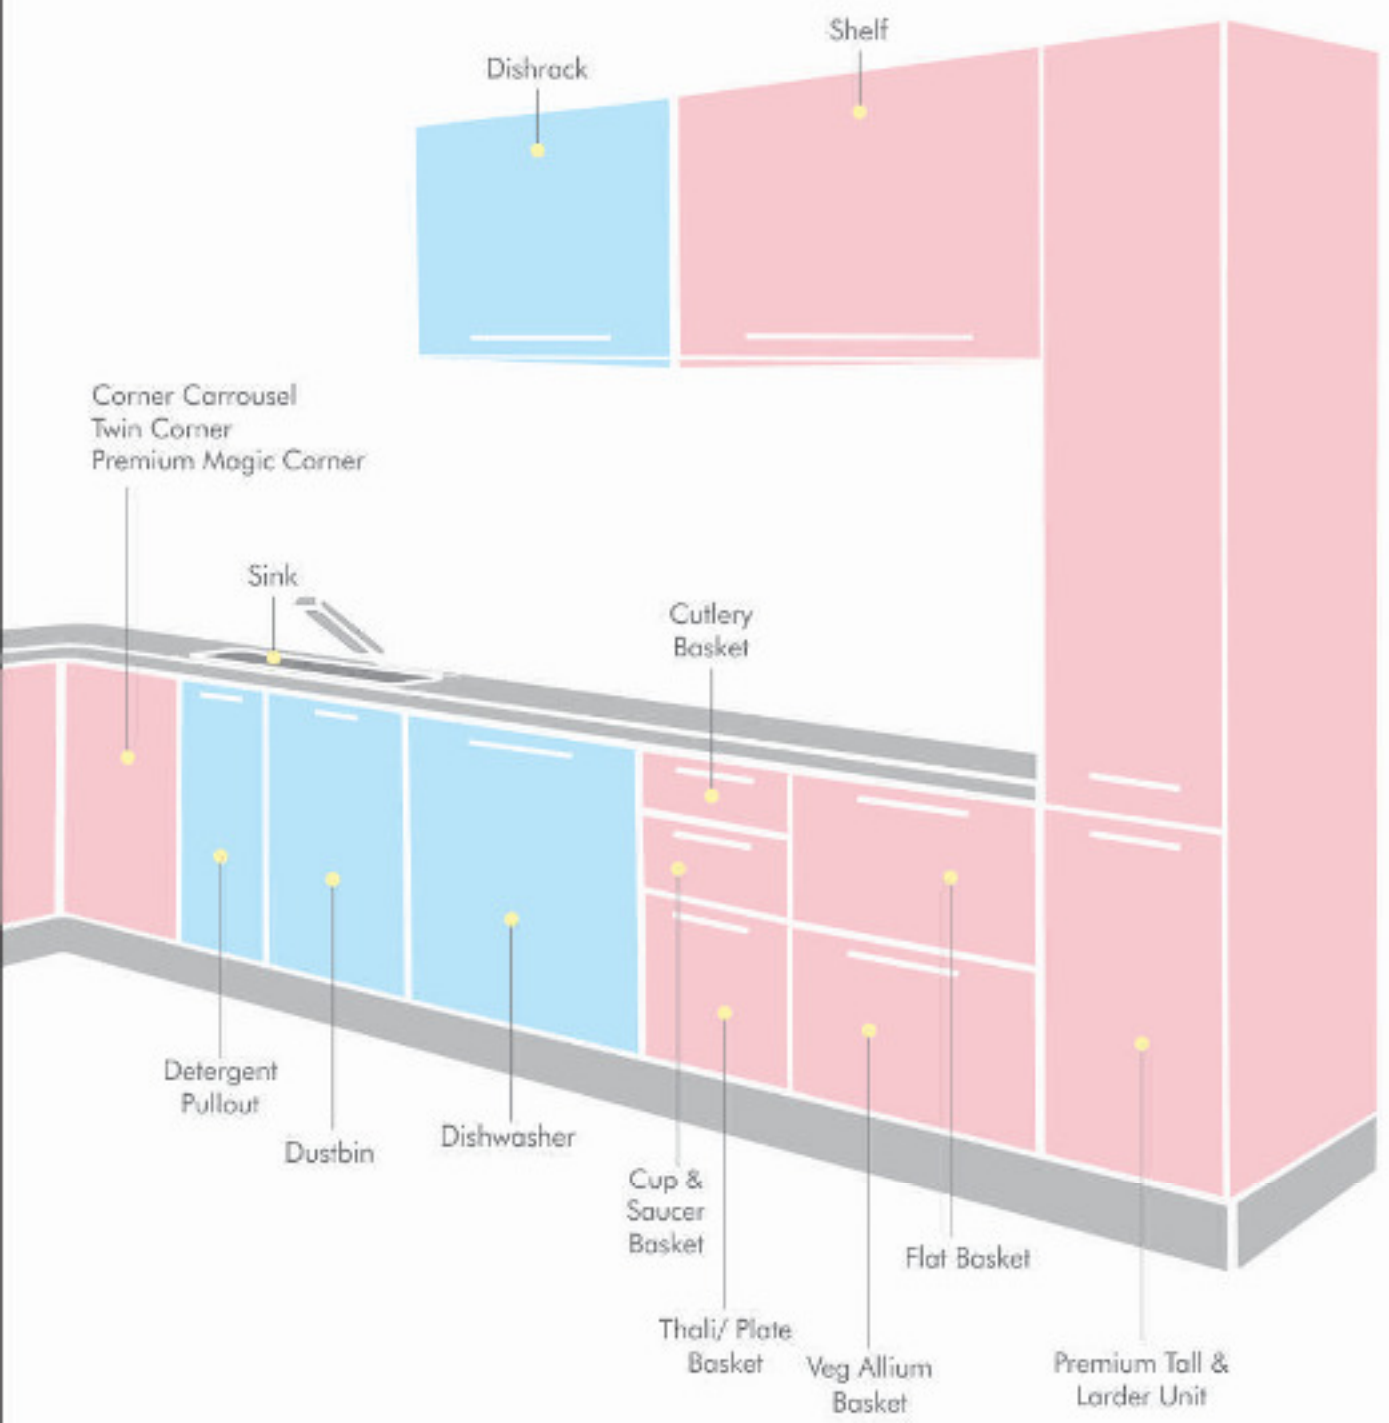

Unique Design

One thing that makes the range a cut above the rest is that it comes with the most premium design not available in the market but exclusively with Sleek.

Any kitchen can be divided into 3 major zones. Each zone has a very specific functional and ergonomics requirement in terms of what has to deliver. With ELNORA, we have designed unique solutions for each of the zones.

Dry Storage Zone

For Consumable and non consumable storage

Cooking Zone

For Cooking and Preparation

Wet Zone

For Cleaning

DRY STORAGE ZONE

Dry zone is used to store all food items which are consumables and non chilled stuffs. Food stuffs such as Bread, Cereals, Ready to eat products, sugar, cold drinks, fruits syrups, vegetables, tinned goods, etc. are normally kept within this zone. Serving utensils and crockery can also be stored in this zone just next to the sink, so it can be easily cleaned and stored back in their dedicated space.

COOKING ZONE

Store all your daily used kitchen utensils often used while cooking in this zone. Cooking zone is the area which requires all the necessary ingredients for cooking available within arm's reach. This zone includes grain baskets and other food sections like a pullout that encloses spice bottles, oil jars to ensure quick access while cooking. One of the most important thing which comes under this zone is the refrigerator or freezer used to store perishable items. Microwave and oven also falls in this zone. This area is dedicated to store items required for food preparation - small appliances, processors and cutlery.

Materials

Sleek Intellect Grade Steel (Stainless Steel with 4% Nickel)

Because of its high corrosion resistance, it is widely used in kitchens and kitchen utensils.

SS 304

- Type SS 304 is a Stainless Steel with 8% Nickel.
- Because of its ability to withstand the corrosive action of various acids found in fruits, meats, detergents, etc, Type SS 304 is used in kitchen baskets.

Plywood (IS303 Grade)

Plywood (IS303) is manufactured from durable face and core veneers, with few defects so it performs longer in both humid and wet conditions and resists delaminating and fungal attack. Its construction is such that it can be used in environments where it is exposed to moisture for long periods.

Compact Laminate

Compact Laminate is a paper fiber-based solid surface material that is high impact, durable, water proof, chemical resistance, fire resistant, green and safe material.
